# Syed Fahad

*Full-Stack Engineer | React, Next.js, Node.js | Scalable Web Applications*

thefahad674@gmail.com | +91 8076927845 | Portfolio | LinkedIn | Github

## Skills

**Frontend** : JavaScript, React.js, Next.js, Tailwind CSS, SCSS, HTML5, Redux, Zustand
**Backend** : Node.js, Express.js, Firebass, MongoDB, Mongoose, Redis, VectorDB
**WebDev Tools** : Git & GitHub, Figma, Docker, Langchain
**AI Tools** : Cursor.ai, Copilot, ChatGPT, Claude

## Work Experience

**Freelance Web Developer | Frontend and Backend**                    June 2025 - present

Delivered **6+** client projects focused on **responsive** and dynamic web applications using **React.js**, **JavaScript**, **HTML**, and **CSS**. Improved **user engagement** and **site performance** by up to **35%** through **UI optimization** and **API integration**. Collaborated directly with clients to gather requirements, **deploy solutions**, and ensure **on-time delivery** with **100% client satisfaction**.
Sample Work: plantsome.ca **[Live]**    |    merch38.com **[Live]**

**SPNX Consulting | Frontend Developer Intern** | On-site, Noida, India          Dec 2024 - May 2025

Developed and optimized **10+** responsive web pages using **React.js**, **JavaScript**, and **Tailwind CSS**, improving **load times** by **25%**. **Collaborated** with **backend developers** to integrate **5+ RESTful APIs**, ensuring seamless **data flow**. Built reusable UI components that reduced code redundancy by **30%** and enhanced overall **project maintainability**.

## Projects

**ClarifAI**( RAG Chat with PDF Application) *Works Locally                    **[Live] [Video] [Github]**
- Developed an **AI-powered** knowledge base platform integrating **Next.js**, **LangChain**, **Clerk Authentication** and **OllamaAPI** for running local **LLMs**, enabling context-aware document querying.
- Engineered a scalable **retrieval-augmented generation (RAG)** system using **Pinecone** vector database, achieving a **40%** reduction in query latency and **95% accuracy** in semantic search results.

**Luxora Rentals** (Full-Stack Car-Rental Platform)                            **[Live] [Github]**
- Engineered a **Full-Stack** car rental platform using **React (Vite)**, **Tailwind CSS**, **Node.js**, **Express**, and **MongoDB** with secure **user authentication** and booking flow.
- Integrated **ImageKit** for optimized image delivery, improving load time by 45% and enhancing user experience across devices.

## COURSES

- The Complete Web Development Course                          (Jonas Schmedtman)
- Complete Full-Stack Web Development Course                   (Sheyrians coding School)
- The Complete JavaScript and React Course                    (Hitesh Chaudhary[Chau aur Code])
- The Complete Backend Development Course                      (Hitesh Chaudhary[Chai aur Code])

## Education

**Delhi University** | **Delhi, India** - Bachelor of Commerce (March 2025)          (CGPA 7.45/10)
